The Honorable Jeffrey Merkley
Chairman
Subcommittee on Interior, Environment &
Related Agencies
United States Senate
Washington, DC 20510

The Honorable Lisa Murkowski
Ranking Member
Subcommittee on Interior, Environment &
Related Agencies
United States Senate
Washington, DC 20510

Dear Chair Merkley and Ranking Member Murkowski:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2023 Interior, Environment & Related Agencies appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Tim Kaine

Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Amherst County Service Authority	Amherst County Service Authority (ACSA) seeks funding of \$2M for the installation of stone revetment of the 500' of James River north river bank to connect the 2007 ACSA project and the 2018 Corps project and complete the protection of the trunk sanitary sewer in this area. The funding estimate was determined by prorating the \$5M cost for the 1250' Corps revetment project for a 500' revetment project to eliminate the eroding gap.	Amherst County VA	\$2,000
Arlington County	Funding will rehabilitate a 2,906-foot section of a large diameter (ranging from 33-inch to 36-inch) interceptor wastewater sewer via trenchless lining.	Arlington County VA	\$1,680
Arlington County	Funding would rehabilitate a 5,876-foot section of a 30" diameter interceptor wastewater sewer via trenchless lining.	Arlington County VA	\$2,000
Alexandria Renew Enterprises	Funding would help construct a tunnel as part of a larger project to prevent millions of gallons of combined sewage from polluting Alexandria's rivers and streams each year.	City of Alexandria VA	\$4,000
City of Bristol	Funding would go toward remediating malodor and other impacts on the Bristol community resulting from a landfill.	City of Bristol VA	\$2,000
City of Chesapeake	Funding will replace and install approximately 9,000 feet of water main and approximately 140 service lines to homes that are suspected to be served by lead service lines in and around the Avalon area of South Norfolk.	City of Chesapeake VA	\$3,710
City of Harrisonburg	Funding will retire segments of two drinking water pipes installed in 1898 and 1929 currently carrying potable water to rural customers.	City of Harrisonburg VA	\$4,880
City of Norfolk	Funding would help replace approximately 2,500 linear feet of gravity sewer main, associated manholes, cleanouts and public laterals in the right-of-way in the Ballentine Place community.	City of Norfolk VA	\$2,000
City of Norfolk	Funding would help replace the Little Creek Drinking Water Storage Tank's existing discharge pump generator, which is a standalone diesel unit that requires refueling visits when operating.	City of Norfolk VA	\$800
City of Petersburg	Funding would go toward construction of approximately 7,650 linear feet (LF) of twenty-inch (20") ductile iron water-main to replace the existing twenty-inch (20") asbestos cement water-main which has exceeded its useful life and has experienced a series of substantial breakages over the past decade.	City of Petersburg VA	\$3,582
City of Portsmouth	Funding would go toward replacing the 5 pumps stations, vacuum sewer piping, and discharge piping and valves to HRSD connections, and the rehabilitation of suction wells.	City of Portsmouth VA	\$6,000
City of Richmond	Funding would go toward completion of key aspects of stabilization of the Byrd Park Pump House in Richmond.	City of Richmond VA	\$500
City of Virginia Beach	Funding would provide flood resiliency to the Windsor Woods and surrounding communities.	City of Virginia Beach VA	\$5,000
City of Virginia Beach	Funding will go toward drainage improvements and flood mitigation along the eastern shore.	City of Virginia Beach VA	\$5,000
City of Virginia Beach	Funding would convert a 100-acre City-owned golf course into a multi-faceted Stormwater Park.	City of Virginia Beach VA	\$5,000

George Mason University	George Mason University seeks to establish and pilot the Greater Chesapeake Tribal Resilience Initiative (GCTRI), to enhance the capacity of Indigenous nations to be leading change-agents in coastal environmental adaptation. The GCTRI will establish a peer-to-peer resource sharing network among Virginia's seven federally-recognized tribes through which they can work with university partners on sustainability initiatives, including applied research and business development	Fairfax County VA	\$1,502
Frederick County Sanitation Authority dba Frederic	Funding will retire segments of two drinking water pipes installed in 1898 and 1929 currently carrying potable water to rural customers.	Frederick County VA	\$3,500
Halifax County Service Authority	Funding would help upgrade and convert a 70 year old 3.0 MGD surface water plant with a conventional gravity sand drinking water filter plant in Halifax County.	Halifax County VA	\$9,000
Prince Edward County	Funding would provide a new reliable, secure drinking water source for Prince Edward County, the Town of Farmville, and surrounding communities.	Prince Edward County VA	\$3,980
U.S. Fish and Wildlife Service	To fund a U.S. Fish and Wildlife Service conservation easement acquisition of nearly 1,000 acres at the Rappahannock River National Wildlife Refuge. These lands, also known as Fones Cliffs, are culturally significant to the Rappahannock Indian Tribe, a federally recognized tribe in Virginia.	Richmond County VA	\$3,000
Rockbridge County	Funding would go toward building a new drinking water treatment plant pump station in Rockbridge County.	Rockbridge County VA	\$3,000
Town of Exmore	This project is for a sewage collection system in the Town of Exmore, consisting of approximately 85,000 linear feet of 2-inch, 3-inch, 4-inch, 6-inch and 8-inch force main and approximately 48,000 linear feet of lateral connection lines necessary to convey the sewerage flows from the Residential and Commercial structures to the Central sewage pumping station. The collection system will convey wastewater from approximately 725 residents and commercial connections.	Town of Exmore VA	\$3,000
Town of Pulaski	This project is for a future Calfee Community & Cultural Center (CCCC), which will house a museum commemorating local African American history, a childcare center that will serve 97 children, a shared-use commercial kitchen, multiple event and office spaces, a computer lab, two natural outdoor play spaces, a half basketball court, and an accessible creekside walking trail.	Town of Pulaski VA	\$500
Town of South Boston	Funding would go toward completing repairs and the replacement of storm sewer lines and associated appurtenances.	Town of South Boston and Halifax County VA	\$3,200
Wolf Trap Foundation for the Performing Arts	Funding would go toward deferred maintenance at Wolf Trap National Park for the Performing Arts including West Lot Repairs and electrical and security repairs at the Filene Center.	Town of Vienna VA	\$2,000
